Student Registration System

A simple **Flask** web application to manage student records with **MongoDB** as the backend database. Users can **add, view, update, and delete** student details.

https://github.com/mohanDevOps-arch/flask_Practice

1/5

Features

- List all students on the home page
- Add a new student
- Update existing student details
- Delete a student with confirmation
- Simple and responsive UI using Bootstrap

Tech Stack

- **Backend:** Python, Flask
- **Database:** MongoDB (via Flask-PyMongo)
- **Frontend:** HTML, Jinja2 templates, Bootstrap 5
- **Environment Variables:** Managed via `.env` file

Setup Instructions

1. Clone the repository

```
git clone <your-repo-url>
cd <repo-folder>
```

2. Create and activate a virtual environment

```
python -m venv venv
# Activate venv
# Windows:
venv\Scripts\activate
# Linux / Mac:
source venv/bin/activate
```

3. Install dependencies

```
pip install -r requirements.txt
```

requirements.txt example:

```
Flask
Flask-PyMongo
python-dotenv
bson
```

4. Configure environment variables

Create a `.env` file in the project root:

```
MONGO_URI=<your-mongodb-connection-string>
SECRET_KEY=<your-secret-key>
```

5. Run the application

```
python app.py
```

Open your browser at: <http://localhost:8000>

Project Structure

```
project/

•

Add Student Form to add a new student.

A screenshot of a web browser showing the 'Add Student' form of the 'Student Registration System'. The browser's address bar shows 'localhost:8000/add'. The form has a title 'Student Registration System' and two buttons: 'Home' (blue) and 'Add Student' (green). Below the title are three input fields labeled 'Name', 'Email', and 'Course'. At the bottom of the form is a green 'Add Student' button.

- Update Student Form pre-filled with student details.

A screenshot of a web browser showing the 'Update Student' form of the 'Student Registration System'. The browser's address bar shows 'localhost:8000/update/68ce66184d19723f0bc46d26'. The form has a title 'Student Registration System' and two buttons: 'Home' (blue) and 'Add Student' (green). Below the title is the heading 'Update Student'. There are three input fields labeled 'Name', 'Email', and 'Course', which are pre-filled with 'Harsha', 'Harsha1994@gmail.com', and 'Devops' respectively. At the bottom are two buttons: 'Update Student' (orange) and 'Cancel' (grey).

- Notes
-
- Make sure MongoDB is running and accessible via the URI in `.env`
